

**Group Members: Tyler, Evan, and Mason**

---

**Problem: Build a version of the winning idea from last weeks challenge for the hand out at the competition**

---

**Approach: We built a propeller made of cardboard and straws. The propellers were made of cardboard and the stem was a straw. The real thing would've been all plastic.**

---

**Solution: Edgar's group won**

---

**Lessons Learned: To come up with better ideas.**
