## Wednesday Challenge Form

Group Members: Mason, Jonathan, and Raul

**Problem Statement:** Transfer “ebola” from one Bag to another with a device made by ourselves. The ebola was a golf ball and we only had Limited resources to build with

**Approach:** We made a device that kind of Acted like chop sticks.

**Solution:** We did not get one ball in a 4 minute Time period.

**Lessons Learned:** To get a better idea for our Device.
