

Date:

Wednesday Challenge Form

Group Members: Jonathan, Aren, and Garren

Problem Statement: Evenly cut a 5' by 5' piece of plywood. The pieces you make must be 10" wide and 32"-46" long.

Approach:

We lined up 6 pieces and then put another piece on top. Our pieces were 46 inches long.

Solution: Evan's group won

Lessons Learned: To come up with better ideas
